Warranty conditions

1. Norlys Sp. z o.o. called hereinafter Producer covers all products with warranty acc. to the regulations specified by this document,
2. Warranty claims against the Producer are subject with a proof of a purchase and a warranty card at the place of purchase and properly filled complaint form (to download from the website : www.norlys.pl/) and evidence of the luminaires installation by qualified authorized electrician.
3. The Producer does not bear any further liability and is not responsible for deletion of the loss, additional costs and of damages, mounting and dismounting of the lighting, delivery of the lighting to the Producer, sending back product not qualified to be covered by warranty, and responsibility of damages caused by unprofessional installation of the outdoor lighting.
4. Liability of the Producer is limited to the value of the product.

Warranty covers

- Electric fixtures – the Producer uses electrical fixtures of other producers acc. to given warranty periods:

- For electrical wires, bulb frames and connection blocs – 24 months,
- For starters, stabilizers, emergency systems and other elements – 24 months,
- For the LED diodes – up to the model : 24- 60 months,
- Led lightings (E27, GU10) TC additionally given to the type of lighting, up to the model : 24- 60 months from the date of purchase with no matter of the type and kind of the frame material.
- Wooden elements (Scandinavian wood series) – the warranty period : 24 months under condition of annual maintenance specified in General Usage Conditions
- Anti – corrosion protection of elements – the following chart specifies warranty periods depending on the range and place of installation of lighting fittings:

Place of installation of lighting	Type of material and coating of lighting fittings					
	Steel , powder paint	Steel, hot - galvanizing	Aluminum, powder paint	Stainless steel, inox	Scandinavian wood	Copper
For products used out offside of industrial zone (over 25 km from the source of harmful chemical agents) and outside a coastal zone (over 15 km from the coastline)	3 years	5 years	5 years	5 years	Scandinavian wood line is covered by 2 years warranty under condition of annual maintenance specified in General Usage Conditions	Copper products are not covered with protective coating and will undergo selfpatination in time, thus changing color. This is natural phenomenon. Therefore, these products are not covered by anti – corrosion protection warranty.
For products used within an industrial zone or in a coastal zone	2 years	3 years	3 years	3 years	- // -	- // -
Special Marine version for products used outside an industrial zone (over 25 km from the source of harmful chemical agents) and outside a coastal zone (over 15 km from the coast line)	OC+F.P* 7 years	OC+F.P* 7 years	2 x F.P* 7 years			
Special marine version for products used within an industrial zone or in a coastal zone	OC+F.P* 4 years	OC+F.P* 4 years	OC+F.P* 4 years			

- OC – chemistry+ hot dip galvanizing • F.P – chemistry+ powder paint Warranty exclusions:

Warranty does not cover products

1. Used other than for intended purposes,
2. Installed against the installation manual received at purchase
3. Powered by mains voltage other than specified in the manual
4. with usage of bulb stronger than specified in the manual
5. Damaged by acts of nature and natural disasters
6. Damaged by overvoltage (caused by atmosphere agents or internal overvoltage)
7. Installed in flooded areas
8. Used with no protection against feces of domestic or farm animals (dogs, cats, etc)
9. Mechanically damaged due to the user's fault when the protective coating integrity has been disturbed (scratches, creases, dents, breaks etc.),
10. Damaged by aggressive chemical agents or usage of different types of brushes.
11. Scandinavian wood line - cracking, darkening of the wood and resin going out which is natural process that occurs in the wood and is not subject to a complaint
12. Natural wear of the materials, fogging coatings, changes shades of lenses, which, despite the UV stabilization over time can change tint depending on the level of sunlight and the operation of the weather conditions

General Usage Conditions

To ensure safe usage, power mains, product installation and its start up should be performed by authorized persons, in accordance with recommendations specified in the provided installation manual.

Free standing lighting fittings should be mounted to the ground only with suitable foundation anchors produced by Norlys Sp. z o.o.

Before performing any service or maintenance activities, the fitting must be disconnected from power supply.

When replacing a bulb observe recommendations concerning its type and maximal power

External surfaces should be cleaned with a soft cloth moistened with water and mild cleaning agent which will not scratch the surface or fittings or lampshades. Wipe fittings dry afterwards.

Do not use harsh (abrasive) or chemically aggressive cleaning agents (solvents in particular)
Do not use high pressure cleaners

The following chart presents the scope of maintenance activities for protective coatings, depending on the type of fittings material and coating.
